Still Shining

Boys & Girls Clubs of Metro Denver
2020 Annual Report

BOYS & GIRLS CLUBS of METRO DENVER

Dear Friends,

In 2020, we were challenged – as a nation, a community, and an organization – to draw on our deepest reserves of resilience.

The negative impacts of the COVID-19 pandemic were felt disproportionately by our children and their families. Our Clubs were forced to close for a time. We saw the surrounding environment of our staff, donors, partners, and supporters, the same plus in national, state and municipal economic and social upheaval, and we felt the impact on our ability to serve our Members.

Our leaders responded to meet challenges head-on, pivoting to provide virtual programming, offering meaningful and relevant health supports. We enhanced physical and hygiene supports to our Clubs, and we provided our Members with a safe place to learn, play, and connect with caring adults. We also leveraged our strong partnerships.

The most impactful and extensive demonstration of angel, that we unchronically focused on our Clubs to provide our Members with a safe place to learn, play, and connect with caring adults. We also leveraged our strong partnerships. We also leveraged our strong partnerships. We also leveraged our strong partnerships
